

NGUYEN BA CANG

Backend Developer

EXPERIENCE

Jun 2024
Aug 2024

BACKEND DEVELOPER

Patecan Software | Ho Chi Minh City

- Assisted in the development and maintenance of RESTful APIs using NestJS.
- Worked on database design and optimization with MongoDB, improving query efficiency.
- Collaborated with front-end developers to troubleshoot and debug server-side issues.
- Gained experience with Agile methodologies and participated in daily stand-up meetings.

EDUCATION

Aug 2021
Present

BACHELOR OF INFORMATION TECHNOLOGY

University of Greenwich | Ho Chi Minh City

PROJECTS

Employee Management

05/2022 - 07/2022

- Implemented features for managing employee records, including CRUD operations for employee data.
- Enhanced system performance by optimizing database queries and improving data storage mechanisms.

Back-end Restaurant Management

06/2024 - 08/2024

- Developed a back-end system for restaurant management using NestJS, TypeScript, and MongoDB.
- Implemented RESTful APIs to handle restaurant operations such as managing reservations, orders, menu items, and staff.
- Integrated MongoDB to store and manage customer information, orders, and menu data efficiently.

OBJECTIVE

I am a backend developer with knowledge of Node.js, Python, and databases. I enjoy building secure and scalable APIs and working on server-side applications. My goal is to learn and grow as a developer while contributing to successful projects.

SKILLS

- Java
- TypeScript
- MongoDB
- RESTful APIs
- NestJS
- Git
- Teamwork
- Adaptability
- Time Management

LANGUAGES

- English | Intermediate.
